Re: Amware Welcomes Neil Porter to Jacksonville

Amware is proud to announce the addition of Neil Porter to our Management Team in Jacksonville, FL. Neil's role will be General Manager of 3PL Operations at Amware's Imeson facility.

Neil is a 25 year veteran of 3PL operations in the metro Jacksonville and surrounding areas. He brings a vast amount of experience and leadership to the operation and will be a welcome addition to our team of Craftsmen.

After graduating from the Georgia Institute of Technology, Neil has spent the last 25+ years fine tuning his craft and providing excellent 3PL services to a wide variety of clients at various Jacksonville facilities. Neil has been providing his leadership to both public and contract warehouses along with transportation service as well.

Neil is well respected in the industry and is a welcome addition to the Amware family. Please join me in welcoming him to Amware; I look forward to working closely alongside him in the coming years.

Respectfully,

Rob Doyle
Vice-President
