DISASTER RELIEF FOR THEIR CUSTOMERS AND OURS

Jacksonville, FL– April 2006: In preparation for the 2006 Hurricane Season we are all a bit more attuned to Mother Nature, our physical surroundings, and our personal/family action plan should the unthinkable become imminent. To better equip end-consumers, like you and I, Amware’s newest customer in Jacksonville,

Florida has begun shipping-in Automatic Home Standby Generators.

These generators will be filling the shelves at many well-known home product retailers; and no doubted be purchased off those shelves in rapid succession as the oceans begin to swell. For use in the average home, these generators will power those necessary and life-sustaining electronic and HVAC systems that each of us rely on, and even more so in times of uncertainty and disaster.

“Several companies have approached us about storing last-minute relief type products here in Jacksonville”, says Neil Porter, Amware’s Jacksonville General Manager. “We

are close enough to target areas that we can distribute resources and products the very next day – same day in some cases even; yet we’re far enough out of the typical disaster zones that our customers can rest assured that their products will be safe and available for the public when they are needed most.”

Amware Logistics Services, Inc.

Amware Logistics Services is dedicated to craftsmanship in delivering customer-focused, quality-driven, cost-appropriate logistics solutions for our customers. With national reach, operational excellence, flexible services, and careful monitoring every step of the way, Amware offers an efficient and affordable logistics alternative that provides measurable cost savings. At Amware, our company is crafted around one important principle: to provide you with the personalized service, secure environment and complete accountability to become your full service logistics partner.

Any logistics company can meet your expectations.
We won't quit until we exceed them.
