OSB LUMBER MOVES IN FOR FLORIDA RELIEF

Jacksonville, FL – September 2004: In the wake of hurricane Ivan, the forest products industry’s largest wholesale distributor in the Upper Midwest -- and subsidiary of the largest wholesaler of forest products across the United States, --has contracted with Amware Logistics Services of Jacksonville, Florida.

Today, Amware began assisting in the distribution of forest product; in particular, by receiving railcars of oriented strand board (OSB) needed for relief throughout the state of Florida. Using Jacksonville as a collection and distribution point, Amware will be receiving several rail cars of products for sortation and cross-dock distribution.

This project has been made possible in part through Amware’s long-time partnership with the CSX Railroad. As a TRANSFLO PREMIER PROVIDER, we are poised to help CSX offer end-to-end supply-chain management to its customers. “We are delighted to be able to participate in this noble re-distribution of product into our devastated state”,

says Keith Harter, General Manager at Amware's Jacksonville facility. "Each of us takes pride in the quality craftsmanship we deliver each and every day. Today we can go home and feel good about the small, yet essential, part we've played in re-building our communities and putting our craftsmanship to work for our families and friends who have been so harmed by hurricane Ivan".

Our hearts go out to those who have been affected by the 2004 hurricane season. We wish everyone a speedy recovery to normalcy and hope that our service to the community has helped expedite this process.
